

PALLAPU DILEEP KUMAR

Computer Science & Engineering Student — Software Developer — AI Enthusiast

Chennai, Tamil Nadu, India
GitHub — LinkedIn — Portfolio

PROFESSIONAL SUMMARY

Computer Science and Engineering student at Vel Tech with hands-on experience across full-stack development, Java/Spring Boot, React, Python, artificial intelligence, machine learning, data analysis, databases, networking and cybersecurity. Experienced through multiple software, AI/ML, web development, Python, prompt engineering and cybersecurity training programs. Built and deployed real-world applications including institutional management systems, e-commerce platforms, AI assistants, chatbots and machine learning solutions. Strong foundation in Data Structures and Algorithms, Object-Oriented Programming, DBMS, REST APIs and problem solving.

EDUCATION

B.Tech – Computer Science and Engineering	Jul 2024 – Aug 2028
Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science & Technology, Chennai	
Intermediate – MPC (Maths, Physics, Chemistry)	Aug 2022 – Mar 2024
Sri Chaitanya College of Education	
Secondary School Certificate (SSC)	Jul 2021 – May 2022
Kids Patasala	

TECHNICAL SKILLS

Programming: Java, Python, JavaScript, C
Frontend: HTML5, CSS3, JavaScript ES6+, React.js, Bootstrap, Tailwind CSS
Backend: Spring Boot, Spring MVC, Spring Data JPA, RESTful APIs, Thymeleaf
AI / ML: Machine Learning, NLP, Chatbots, Speech Recognition, Prompt Engineering, RAG Concepts, AI Agents
Data Science: Pandas, NumPy, Matplotlib, Seaborn, Scikit-Learn, Jupyter Notebook
Databases: MySQL, MongoDB
Cybersecurity & Networking: Network Security, Ethical Hacking, Cyber Defense, Threat Intelligence, CCNA, Firewall Rules, ACL Concepts
Core Computer Science: Data Structures, Algorithms, OOP, DBMS, Software Engineering, Problem Solving
Tools: Git, GitHub, VS Code, IntelliJ IDEA, Eclipse

INTERNSHIP & INDUSTRY EXPERIENCE

Cybersecurity Trainee / Ethical Hacker	Jun 2026 – Present
<i>Cisco Networking Academy</i>	
- Developed foundational knowledge of network security architectures, cyber defense, threat intelligence, online safety and data protection. - Practiced cybersecurity scenarios involving firewall rules and Access Control List (ACL) configurations.	
AI & Data Science Development Intern	Aug 2026 – Sep 2026
<i>Skill Nexis</i>	
- Worked on predictive machine learning models, AI algorithms and Python-based data science workflows. - Developed exploratory data pipelines, statistical visualizations and data-cleaning routines. - Won the #1 Weekly Innovation Challenge for a community-upvoted idea.	
Software & AI Development Intern	2025 – 2026
<i>QSkill & SR India</i>	
- Worked across AI/ML, front-end and Python development tracks. - Developed responsive interfaces, reusable components and interactive UI functionality. - Built Python modules, concurrent scripts, multithreaded backend routines and automated data-handling workflows. - Gained practical exposure to machine learning algorithms, dataset preprocessing and predictive systems.	
Web Development Summer Intern	Jun 2026 – Jul 2026
<i>Infinity Connects Media</i>	
- Developed responsive web pages using HTML5, CSS3 and modern JavaScript. - Improved UI components, cross-device compatibility and user experience. - Collaborated with design and engineering teams on production-oriented web interfaces.	
Prompt Engineer Intern	Jun 2026
<i>SkillCraft Technology</i>	
- Designed and optimized LLM prompts, context-management pipelines and reusable prompt templates. - Applied zero-shot and few-shot prompting strategies and evaluated generated responses.	
Artificial Intelligence Intern	Mar 2026 – May 2026
<i>Topgrade Innovation</i>	

- Worked with AI frameworks, algorithms and intelligent system architectures.
- Built and evaluated predictive machine learning models using Python and data science libraries.

Marketing Intern

Jun 2026 – Jul 2026

Innoknowver

- Worked on digital marketing initiatives, user outreach and audience engagement analysis.

PROJECTS

Smart Campus Event Management System

- Built a full-stack campus event management platform using Java, Spring Boot, Spring Data JPA, MySQL and Thymeleaf.
- Implemented event scheduling, CRUD operations, online student registration, search functionality and automated email receipts.
- Developed administrator analytics and applied MVC architecture, validation and exception handling.

Smart Attendance Management System

- Developed an institutional web portal with Student, Faculty and Admin role-based authentication.
- Implemented attendance calculations, faculty roster management, analytics and automated PDF report generation.

Zentro Hub – E-Commerce Platform

- Developed a responsive e-commerce application with a dynamic product catalogue covering 12 categories and 138+ products.
- Implemented product search, filtering, cart state management, promotional carousel, rewards and pincode delivery checking.

Interactive AI Developer Portfolio

- Designed and deployed a responsive developer portfolio using HTML5, CSS3 and JavaScript.
- Implemented interactive credential filtering, modal certificate viewing, theme switching and GitHub Pages deployment.

AI-Based Voice Assistant

- Developed a Python voice assistant using SpeechRecognition and pyttsx3.
- Implemented speech recognition, text-to-speech, web search, application control and automation.

AI Chatbot for Student Queries

- Developed an academic support chatbot using Python, NLP, rule-based decision logic and JSON data.
- Designed conversational flows for course, schedule, fee and department-related student queries.

Iris Flower Classification

- Developed a supervised machine learning classification model using Python and Scikit-Learn.
- Applied feature scaling, exploratory data analysis and classification algorithms.

House Price Prediction

- Developed a machine learning regression model to estimate house prices from real-estate features.
- Used Pandas and Scikit-Learn for data processing and model development.

Exploratory Data Analysis

- Performed statistical analysis and visualization using Pandas, NumPy, Matplotlib and Seaborn.
- Identified trends, relationships and patterns within datasets.

SELECTED CERTIFICATIONS

AI / Machine Learning

- Building AI-Powered Search with MongoDB Vector Search – MongoDB
- Building AI Agents with MongoDB – MongoDB
- Building RAG Apps Using MongoDB – MongoDB
- AI and Innovation: Resilient AI Strategy – MongoDB
- Machine Learning & Image Processing – thingQbator & Nasscom Foundation

Software Development

- Oracle Certified Foundations Associate – Oracle University
- Advanced Data Structures and Algorithms in Python – Infosys Springboard
- Python Essentials 1 – Cisco Networking Academy & Python Institute
- Python Essentials 2 – Cisco Networking Academy & Python Institute
- Python Concurrent Programming – Infosys Springboard
- Securing the Backend Layers – Infosys Springboard

Web Development

- Full Stack Development with MERN – thingQbator & Nasscom Foundation
- Full Stack Development with MEAN – thingQbator & Nasscom Foundation
- HTML & CSS Web Development – thingQbator & Nasscom Foundation
- Build a Free Website with WordPress – Coursera

Cybersecurity & Networking

- Ethical Hacker – Cisco Networking Academy
- Industrial Cybersecurity Essentials – Cisco Networking Academy

- AP Cybersecurity – Cisco Networking Academy
- CCNA 1: Introduction to Networks – Cisco Networking Academy
- CCNA 2: Switching, Routing, and Wireless Essentials – Cisco Networking Academy
- CCNA 3: Enterprise Networking, Security, and Automation – Cisco Networking Academy
- Mastering Palo Alto Networks – Infosys Springboard

Professional / Industry

- GenAI Powered Data Analytics Job Simulation – Tata & Forage
- Data Analytics Job Simulation – Deloitte & Forage
- AI for Software Engineers – Turnip Innovations
- AICTE Evaluated 2-Week Patent Course – AICTE / Turnip Innovations
- UX Surgery – Interface Redesign Sprint – Vel Tech University & IEEE
- Codeathon25 – Path to Programming Excellence – Vel Tech University & IEEE

ACHIEVEMENTS & ADDITIONAL

- **#1 Winner** – Skill Nexis Weekly Innovation Challenge.
- Participated in TCS CodeVita Season XIII.
- Built and deployed multiple projects using GitHub and GitHub Pages.
- Maintains an active portfolio showcasing software, AI/ML and web development work.
