

PALLAPU DILEEP KUMAR

AI/ML Developer — Python — NLP — Intelligent Applications

Chennai, Tamil Nadu, India

dileepkumarpallapu28@gmail.com — +91 6300837459

LinkedIn — GitHub — Portfolio

SUMMARY

Computer Science and Engineering student and AI enthusiast with practical experience in machine learning, NLP, prompt engineering, speech recognition and intelligent application development. Skilled in Python, Pandas, NumPy, Scikit-Learn and conversational AI. Experienced through AI/ML internships and multiple AI-oriented academic projects.

EDUCATION

B.Tech – Computer Science and Engineering

Jul 2024 – Aug 2028

Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science & Technology, Chennai

Intermediate – MPC (Maths, Physics, Chemistry)

Aug 2022 – Mar 2024

Sri Chaitanya College of Education

Secondary School Certificate (SSC)

Jul 2021 – May 2022

Kids Patasala

AI / ML SKILLS

Programming: Python, Java, JavaScript

Machine Learning: Scikit-Learn, Classification, Regression, EDA

Data Science: Pandas, NumPy, Matplotlib, Seaborn

AI/NLP: NLP, Chatbots, Speech Recognition, Prompt Engineering

Generative AI: RAG Concepts, AI Agents, Vector Search

Tools: Jupyter Notebook, Git, GitHub, VS Code

INTERNSHIP EXPERIENCE

TopGrade Innovation – Artificial Intelligence Intern

- Worked with artificial intelligence algorithms and machine learning workflows.
- Developed predictive system concepts using Python and data science libraries.
- Explored intelligent application development and automated data workflows.

QSkill & SR India – AI/ML Intern

- Studied AI algorithms, machine learning architectures and data preprocessing.
- Worked on predictive system development using Python.

SkillCraft Technology – Prompt Engineer Intern

- Designed and optimized LLM prompts using zero-shot and few-shot strategies.
- Worked on context management and prompt evaluation.

PROJECTS

AI-Based Voice Assistant

- Developed a Python voice assistant using SpeechRecognition and pyttsx3.
- Implemented speech-to-text, text-to-speech, web search and application automation.

AI Chatbot for Student Queries

- Developed an academic chatbot using Python, NLP concepts, rule-based logic and structured JSON data.
- Designed conversational flows for student academic queries.

Iris Flower Classification

- Built a supervised machine learning classification model using Scikit-Learn.
- Applied exploratory data analysis, feature scaling and classification techniques.

House Price Prediction

- Developed a regression model for predicting house prices.
- Processed real-estate features and evaluated model performance.

SELECTED CERTIFICATIONS

- Building AI-Powered Search with MongoDB Vector Search – MongoDB
- Building AI Agents with MongoDB – MongoDB
- Building RAG Apps Using MongoDB – MongoDB
- AI and Innovation: Resilient AI Strategy – MongoDB
- Oracle Certified Foundations Associate – Oracle
- Machine Learning & Image Processing – thingQbator / Nasscom
- AI for Software Engineers – Turnip Innovations
- AICTE Evaluated 2-Week Patent Course – AICTE / Turnip
